Summer Workshops

Hands on
Learning

▶ Bringing kids in touch with farming through fun engaging activities

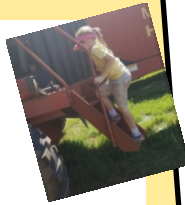

(908) 371-COWS * info@norzhillfarm.com

Please read over the activates children will be participating in. Note the participants will be working with dairy, be around bees and have egg experiments. If your child has allergies to these we do not recommend our workshops.

▶ A week out at the Farm

Giving children the unique opportunity to have hands on learning time on a working farm, are memories that can last a lifetime. It is through touching, seeing and interacting with the land, that children will understand where their food comes from. Bonus, they'll have fun while learning. The week long workshops include daily chores such as collecting eggs and brushing animals to learning about our big machines and what they do. How was hay baled before we had machines? What is a baby sheep called? How do plants drink? Each day will include classes around the farm and farm related crafts activities.

What to bring/expect ...

- * Bring your lunch (we have refrigerators)
- * Bring a smile
- * Bring a reusable waterbottle
- * Make fond childhood memories!
- * Take home projects
